# PRE-CAMP MITIGATION STRATEGIES

- ✗ Our success is dependent upon one another
- ✗ With our current medical guidance, campers and families would be required to start quarantine on Tuesday
- ✗ Campers get test on Thursday or Friday
- ✗ Campers arrive to camp on Sunday

# IN-SEASON MITIGATION STRATEGIES

- X Initially, all campers will be required to wear masks outside of their bunks
- X Later in the season, in accordance with health guidelines, we will assess our mitigation strategies.
- X Our goal is to create a “normal” of a summer as possible

# TESTING PROTOCOLS

## Before Camp

- X All campers must obtain a negative PCR test within 72 hours before the start of their session
- X Families / insurance will cover the cost of this test

## At Camp

- X Day 0 = All campers test
- X Day 5 = All campers test
- X Weekly pool surveillance testing
- X Cost included in COVID fee

## COVID SYMPTOMS AT CAMP

- ✗ If a camper presents with symptoms consistent with COVID according to CDC, camper will receive PCR test
- ✗ While awaiting result, camper will isolate in Bunk 17
- ✗ If positive PCR, camper will need to be picked up immediately
- ✗ Camper's bunk will be considered close contacts

# COMMUNICATION STRATEGY

- ✗ If positive case, all families will receive an email
- ✗ Personal contact with campers who are identified as close contacts
- ✗ Be sure you have a pick-up plan

## CREATING OUR BUBBLE

- X Our goal is to create a bubble on the hillside
- X This bubble starts with campers/families quarantine prior to the start of camp
- X We are still finalizing our procedures, but parents should not plan on dropping their campers off at their bunks
- X Visiting day will be virtual
- X No campers or staff will be allowed to leave campus

## NEXT STEPS

- ✗ April 6, 7:00PM - Parent Forum
- ✗ May 4, 7:00PM - Camper-focused Forum
- ✗ June 1, 7:00PM - Community Forum

Families and campers will receive continued communication from Ken, Stacy, and the COVID taskforce
